## *Paint Trends* WITH SHAYLA COPAS

**WHAT COLOR ARE YOU PREDICTING WILL BE HOT THIS SUMMER?** Behr's Lemon Burst is a fresh, clean yellow that I believe will be quite popular this spring and summer. Cool tones of yellows are making their way back into the design scene.

**WHAT IS YOUR FAVORITE NEUTRAL AT THE MOMENT?** We are partial to Sea Salt by Sherwin-Williams. It is a pale blue/green with a spa-like quality. I feel that blue/greens are definitely making a statement as "neutrals" this year.

**WHAT IS YOUR FAVORITE BOLD COLOR THIS YEAR?** It is hard to decide because I love all colors. However, I think bold greens are definitely going to remain strong throughout 2017 since "Greenery" was selected as the Pantone Institute's Color of the Year. We like to use this hue as an accent inside bookshelves with white accessories.

**DO YOU HAVE A "GO-TO" COLOR?** Yes, we tend to specify a color called Unbleached Muslin by Martin Senour frequently. We love this warm neutral because it tends to be a chameleon color.

**WHAT IS YOUR FAVORITE TRIM COLOR?** We LOVE Greek Villa by Sherwin-Williams. It pairs nicely with warm or cool wall colors.
