Spring Trends WITH SHAYLA COPAS

TELL US WHAT TRENDS YOU ARE NOTICING ON THE HORIZON FOR SPRING? Simply put, we are seeing color, color, color, and more color! We are noticing pops of bold hues everywhere. Wallcoverings, tile, fabric, art, and accessories are brighter than ever.

WHAT'S NEW IN KITCHEN DESIGN? Kitchens appear to be trending toward a more clean and crisp look than what they have had in previous years. We are seeing a lot of painted cabinetry in shades of grey, white, and light blue. Also, many people are choosing to paint their islands with a contrasting color to add visual interest. As for countertops, granite is OUT. It has been replaced with quartz work surfaces, such as Dekton.

WHAT IS ONE ITEM YOU THINK EVERYONE SHOULD HAVE THIS YEAR? Wallpaper. Wallcoverings are back in a big way. It can easily add personality to your spaces—the bolder the better! Personally, we have been ordering more and more for clients who want to add pattern or texture to their spaces.

WHAT ARE YOU SEEING AS A MUST-HAVE COLOR FOR 2017? For an accent color, we are seeing magenta consistently across the board. However, anything in a cool color palette is very popular and can work in a variety of rooms.

Each month we ask our readers to share their top picks in various categories—from eateries to interior designers. This month, we asked you to share your go-to renovation professionals. Here's a look at your submissions:
